

Get Ready to Race in the AWS DeepRacer League

De Clercq Wentzel
Sr. PMT
DeepRacer
AWS AI

Agenda

AWS DeepRacer

A drive through reinforcement learning

Virtual Simulator

Rubber Meets the Road

AWS DeepRacer

AWS DeepRacer: An exciting way for developers to get hands-on experience with reinforcement learning

Robotic autonomous
race car

Virtual simulator, to train
and experiment

Global racing league

AWS DeepRacer problem formulation

STATE

ACTION

REWARD

EPISODE

A drive through reinforcement learning

Reinforcement learning in the broader AI context

Reinforcement learning in the real world

**Reward positive
behavior**

**Don't reward
negative behavior**

The result!

The reward function

The reward function incentivizes particular behaviors and is at the core of reinforcement learning

The reward function in a race grid

AGENT

GOAL

Incentivizing centerline behavior

0.1	0.1	0.1	0.1	0.1	0.1	0.1	0.1
S	2	2	2	2	2	2	G = 2
0.1	0.1	0.1	0.1	0.1	0.1	0.1	0.1

REWARD FUNCTION

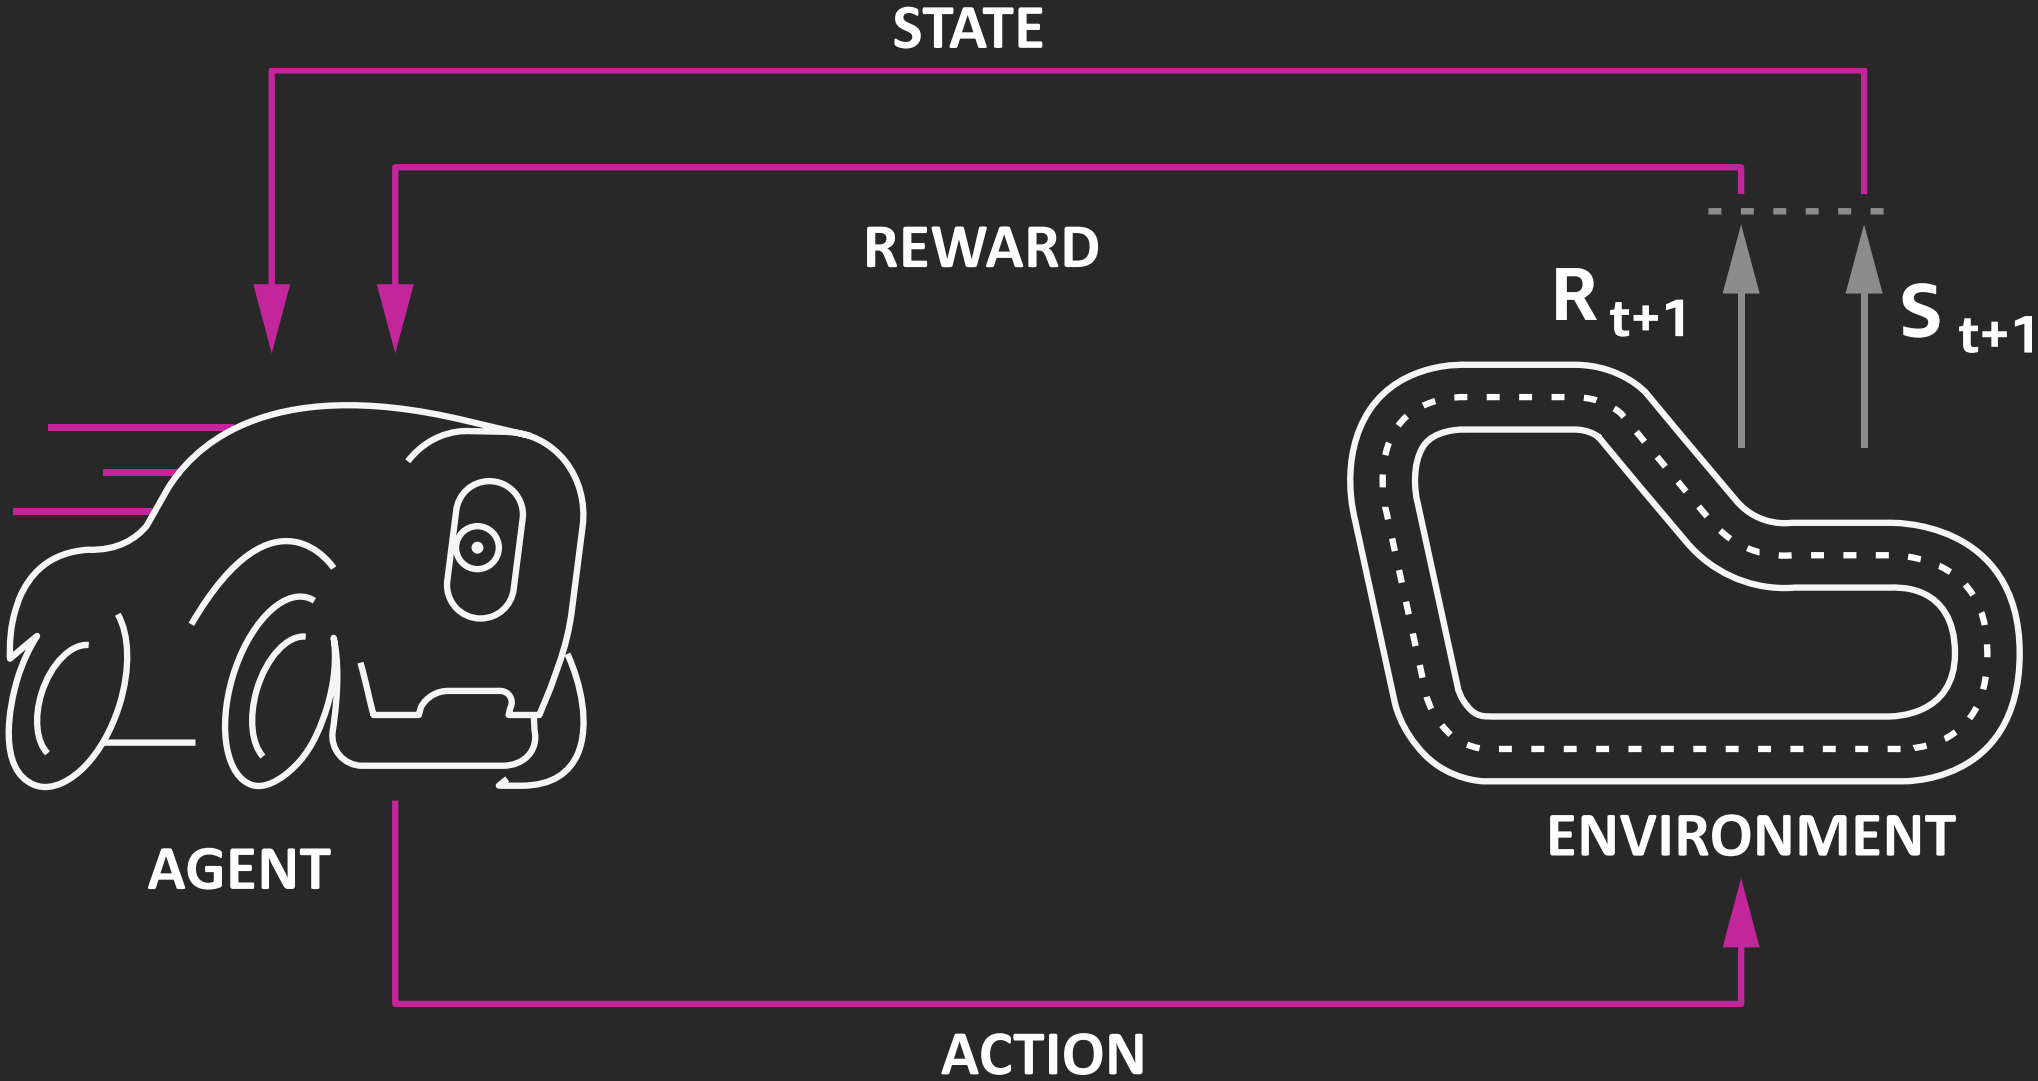

8.6	9.5	8.5	7.5	6.3	5.0	3.5	1.9
S	10.4	9.4	8.2	6.9	5.4	3.8	G = 2
8.6	9.5	8.5	7.5	6.3	5.0	3.5	1.9

MAX VALUE OF EACH STATE
AFTER LOTS OF EXPLORING

Discount per step
0.9

How does learning happen?

VALUE FUNCTION

POLICY FUNCTION

RL algorithms: Vanilla policy gradient

Data is only used once

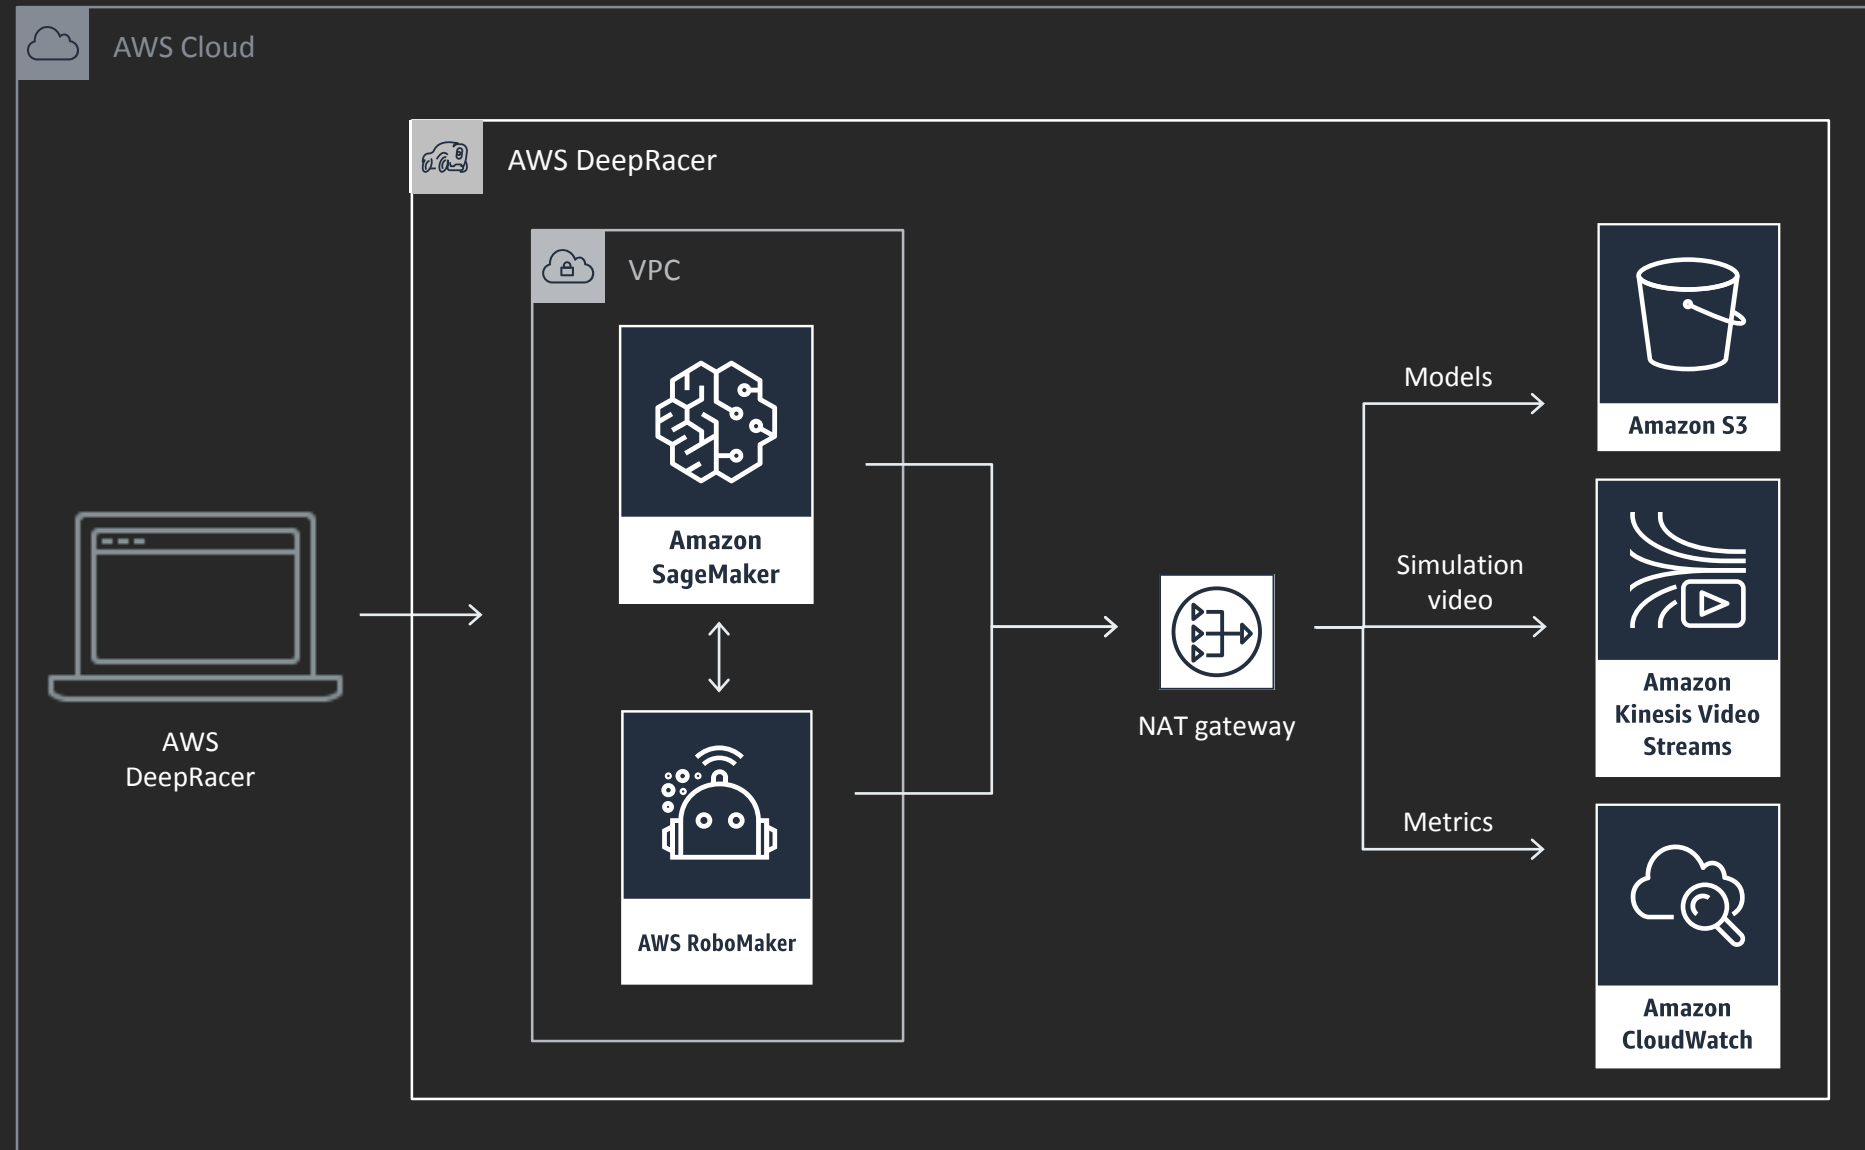

- High variance of rewards
- Magnitude of update could be too large

AWS DeepRacer Neural Network Architecture

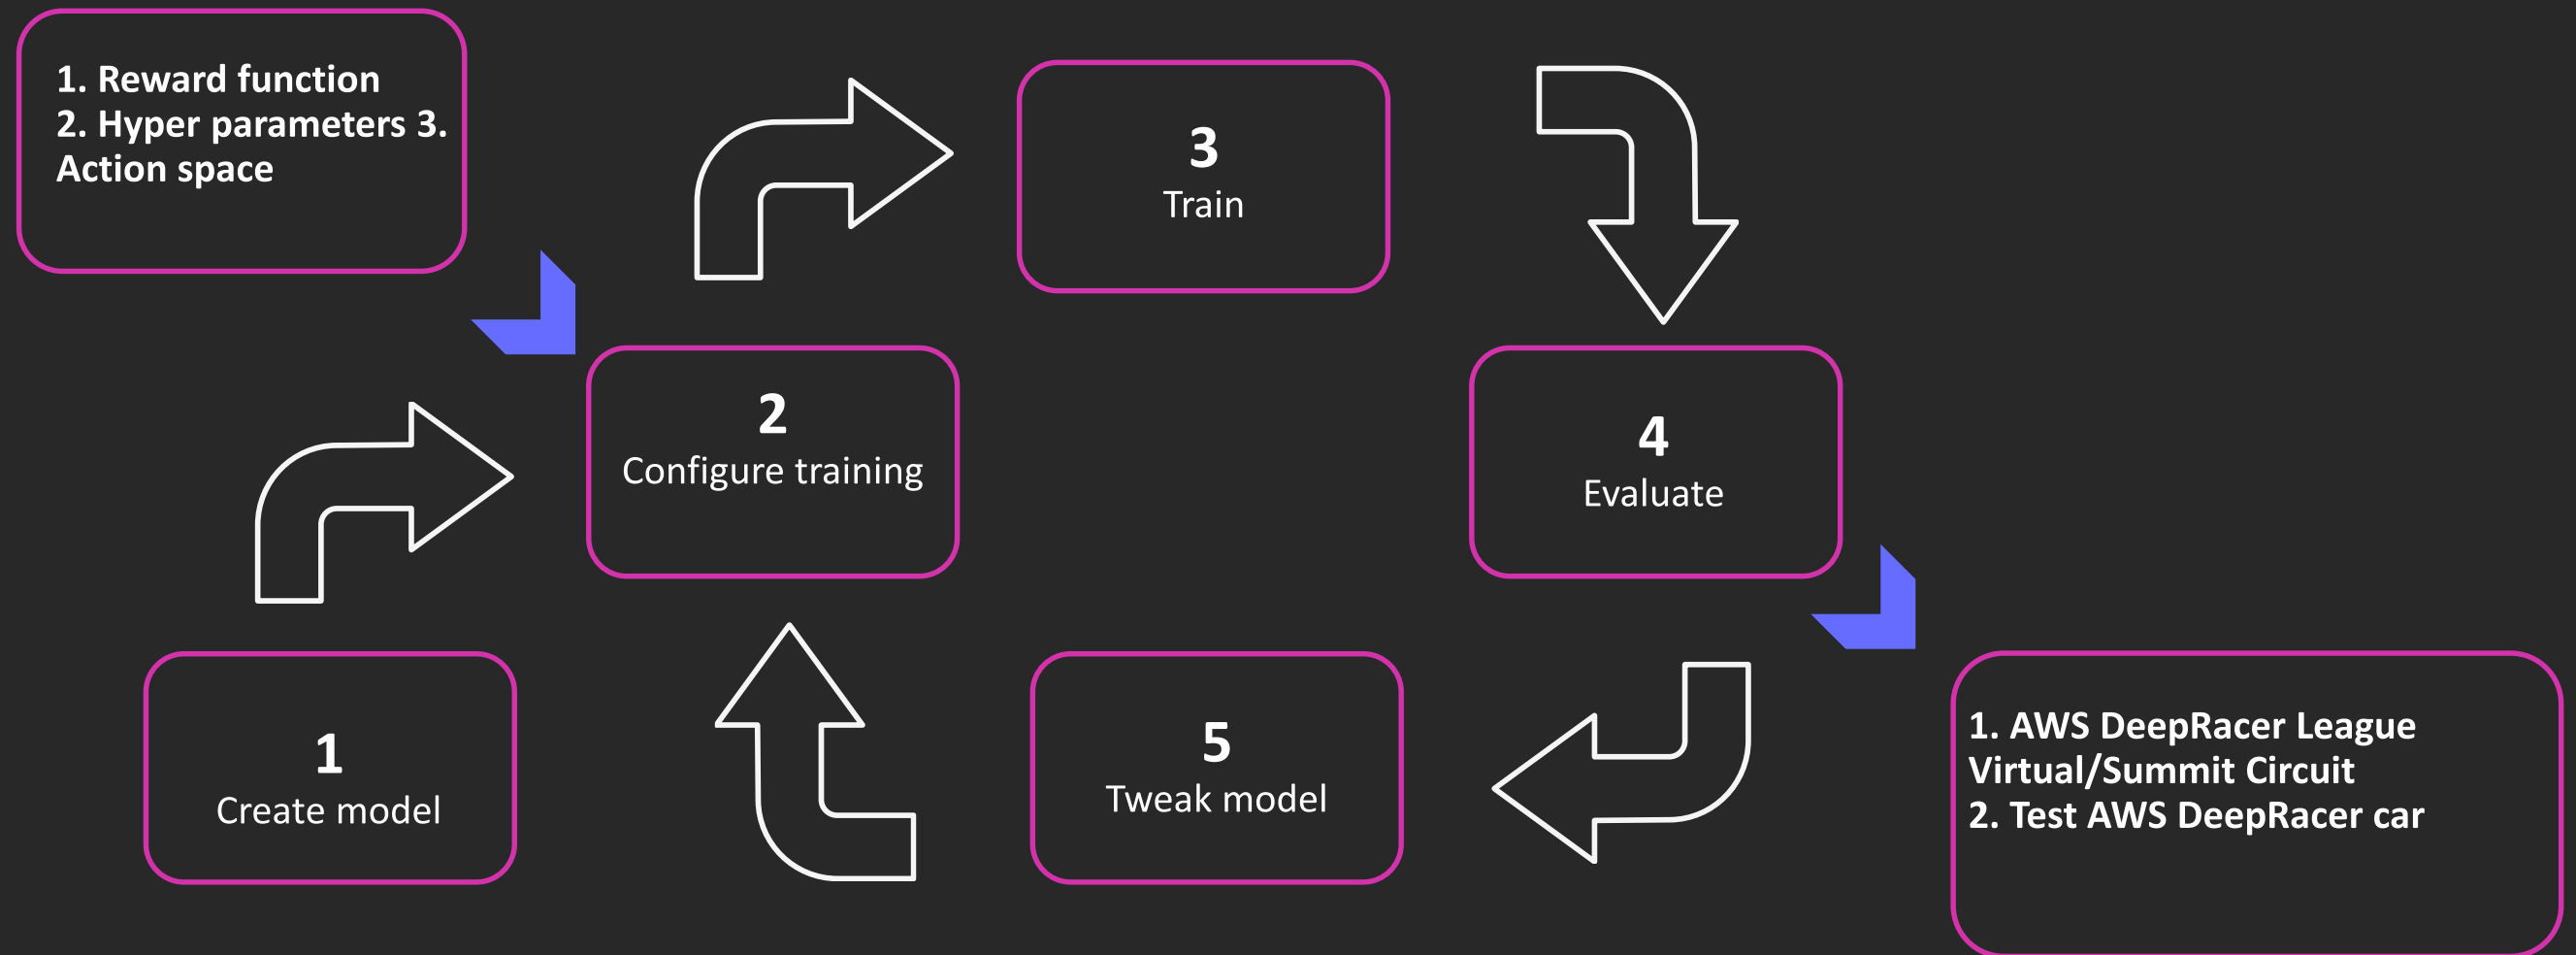

Virtual Simulator

AWS DeepRacer simulator architecture

Rubber Meets the Road

AWS DeepRacer: Driven by reinforcement learning

Want to learn more?

Learn how to build a reinforcement learning model and find tips and tricks about how to tune those models to climb the League leaderboard in a digital training course for reinforcement learning and AWS DeepRacer.

This 90-minute course is available at no cost, has 6 self-guided chapters, and will help you prepare to compete in the AWS DeepRacer League.

<https://www.aws.training/learningobject/wbc?id=32143>

AWS DeepRacer League, race for prizes and glory

The world's first global, autonomous racing league

Virtual Circuit

Go to the AWS DeepRacer service

Train a model

Submit your model to the virtual races in the Virtual Circuit

Summit Circuit

We supply the cars and track, just bring your model, or train one during the workshop

Race to get your name on the leaderboard and make history
